

TRACK: InfraGard Track / Cyber-crime, terrorism, and information warfare
SESSION #: TBA
DATE: TBA
TIME: TBA
SESSION TITLE: "State of the Hack – Find Evil. Solve Crime."
SPEAKER(S): Michael E. Malin – Executive Vice President and CFO
ORGANIZATION: MANDIANT

ABSTRACT: "State of the Hack – Find Evil. Solve Crime."

This presentation will examine the trends and explore real case studies in incident response and computer forensics that both commercial organizations and government agencies are experiencing on a daily basis. While preventative and detective security measures are effective in mitigating information risk, compromises continue to occur; therefore, requiring a heightened respect for responsive security measures.

This presentation is intended for professionals who regularly deal with system risk, operational risk, financial risk, or legal risk and understand the potential business impact to their business. The participants of this session will walk away with a firm understanding of the magnitude and severity of the matter-at-hand (yes, we are under constant cyber attack) and how to better view information security risk at their organization. The presentation will cover the following topics:

- Overview of Presentation
- Trends and Statistics in Incident Response & Computer Forensics
- Discussion of Real Case Studies
- Technical Deficiencies in Computer Security
- Business Impact and Legal Concerns
- Measures to Mitigate Information Security Risk
- Closing with Q&A

SPEAKER BIO(S):

Michael Malin serves as Executive Vice President and the Chief Financial Officer for MANDIANT, based in New York. As a member of the executive management team, Michael is responsible for MANDIANT's strategic direction, and for managing the company's marketing, legal, human resources, business development and New York office operations.

Prior to MANDIANT, Michael was Regional Vice President of International for Foundstone, responsible for all sales, operations and business development initiatives outside the United States and Canada. His roles and responsibilities included generating, training and managing international distribution channels for the sale of software, services and education. He was instrumental in the development and revenue growth of Foundstone's education service line, highlighted by a key strategic partnership he brokered with the world's largest independent training company.

He holds a Bachelor of Science in Accounting from Bucknell University in Lewisburg, Pa., and is a Certified Information Systems Auditor (CISA), a Certified Business Continuity Planner (CBCP), and a member of the MENSA organization.
